

Esri IMIA Special Offer

The ArcGIS for Desktop Basic provides basic GIS analysis and mapping capabilities. ArcGIS for Desktop Standard brings many effective cartographic and data production functions beyond those in ArcGIS for Desktop Basic. [Learn more](#)

Eligibility

- Offer is valid for one single use license of the latest version of either ArcGIS for Desktop Basic or ArcGIS for Desktop Standard.
- This offer is only available to companies with 24 or fewer employees whose primary business purpose is map or geospatial data publishing.
- IMIA member must be in good standing with dues current. New IMIA members must pay membership dues two years in advance for offer to apply.
- First year software maintenance is included and will thereafter be followed up by Esri or your Esri distributor.

Esri ArcGIS for Desktop Basic

Full Cartographic Production Platform allows you to:

- Automate many aspects of cartography, making intelligent map production more efficient
- Simplify data design, input, and maintenance with advanced editing
- Easily create and share information with individuals, groups, or organizations

Esri ArcGIS for Desktop Standard

Standard includes all the functionality of Basic, and allows you to:

- Create, edit, and ensure the quality of your data
- Edit a multi-user enterprise geodatabase
- Increase understanding and improve decision-making using powerful modeling and analysis tools

Which ArcGIS for Desktop Software Is Right for You?

ArcGIS for Desktop allows you to analyze your data and author [geographic knowledge](#) to examine relationships, test predictions, and ultimately make better decisions.

Through your membership in the International Map Industry Association (www.imiamaps.org) and contribution, the software is available in two license levels—Basic or Standard (formerly ArcView and ArcEditor respectively). These license levels share the same core applications, user interface, and development environment. Each license level provides additional GIS functionality as you move from Basic to Standard.

	Basic (ArcView) Contribution USD\$520	Standard (ArcEditor) Contribution USD\$1520
Visually model and spatially analyze a process or workflow.	✓	✓
Create interactive maps from file, database, and online sources.	✓	✓
Create street-level maps that incorporate GPS locations.	✓	✓
