

## **Dennis Nazarenko**

*CO-FOUNDER AND VICE PRESIDENT  
CLEARSKY CONNECT INC.*

### **IMIA Mapping Leaders Virtual Forum Series**

#### **Biography**

Dennis Nazarenko has over 35 years' experience in various areas of technology innovation – particularly with respect to remote sensing and geomatics. In 2019 Dennis cofounded ClearSky Connect, an RPAS industry company focused on provision of communications services and solutions for BVLOS operations. Prior to forming ClearSky, Dennis led his own consulting practice providing strategic business planning support to clients in the high-tech industry, including support for various clients within the RPAS space.

This has included work to address issues around BVLOS regulation and its impact on the Canadian UAS industry and end users.

Past positions have included Director of Business Development for Marconi Wireless, a global supplier of software and geodata products for wireless network design and implementation, Director of Market Development for Radarsat International and senior roles in several technology start up and growth companies.

Dennis has degrees from the University of Saskatchewan and McGill University and has been a speaker at numerous industry-leading conferences and events such as the Canadian Symposium on Remote Sensing, the International Society of Photogrammetry and Remote Sensing, the Asian Remote Sensing Conference, and the IEEE International Radar Conference. In addition, Dennis has authored or co-authored close to 40 technical papers on various aspects of spatial technology.

**Speaking on** September 30, 2020, 10:00 – 11:00 am EDT
