## National Mapping Events and Activities

The Esri User Conference (Esri UC) has many presentations and events with hundreds of topics covered. To help you find your way to the National Mapping sessions and events, we have prepared a more focused agenda.

### Mapping & Statistics Showcase

Visit the Mapping & Statistics Showcase to connect with leading experts in aviation, maritime, national mapping, official statistics, geospatial ecosystems (NSDI/SDI), and advanced innovative technology. Discover how geospatial authorities use GIS to produce fundamental and foundational information that addresses socioeconomic, security, and environmental challenges in government and society.

## New Registration Process for SIGs and Summits

All Summits and SIGs will require a reservation to attend. Please use *Add to Schedule* to reserve your spot or *Join Wait List* to be added to the queue.

**Please Note:** Reservations will be held until five minutes prior to the start time before seating will be opened to attendees in the on-site queue. If attendees with a reservation remove the session from their schedule, the next person on the wait list will automatically receive that open reservation. Wait lists will only be available before the conference. On-site walk-in attendance may be available dependent on room capacity and will be allowed on a first-come, first-served basis. Thank you.
